

Introduction

- Restenosis is the Achilles heel of vascular intervention
- Much of the clinical and research activity over the last 20 years has been focused on preventing restenosis
- DEB = philosophy to leave nothing behind
- This symposium will present a new solution based on unique technologies, the SELUTION SLR™
 - From Bench-to-Bed
 - Sirolimus in DEB Technology
 - Importance of sustained release
 - Different indications for sirolimus eluting balloons
 - Which patients will potentially benefit from such breakthrough technology

Agenda

A Breakthrough in Drug-Eluting Balloon Technology

MedAlliance sponsored Symposium

Moderators: M. Brodmann , P. Gaines

- Welcome and Introduction M. Brodmann
- Importance of sustained drug release in DEB: Insights into preclinical data for the SELUTION SLR™ A. Finn
- Sustained Limus release translating into sustained clinical outcomes: SELUTION SFA – 2-year results T. Zeller
- SELUTION SLR™ in clinical practice: Angio case examples U. Beschorner
- How low can you go? SELUTION SLR™ below-the-knee and in tibial arteries – first experience T. Y. Tang
- Next Steps and Adjourn P. Gaines
